MAS EduData

DATA SERVICES & SOLUTIONS

Turning Educational Data into Better Decisions.

Analytics | Insights | Automation | Growth

COMPANY PORTFOLIO & SERVICE PROPOSAL

Practical analytics and reporting for educational institutions.

Data analytics, business intelligence and reporting solutions for schools, colleges, coaching centres and learning institutes, delivered by a founder-led team you can speak to directly.

OUR FOCUS
Education • Analytics • Automation

OUR PROMISE
Clear reports. Useful insights. Better-informed decisions.

Prepared for educational institutions

01 | WHO WE ARE

Data services built around education.

MAS EduData is an education-focused data services and solutions brand. We help institutions organise their existing information and turn it into understandable reports, dashboards and management insights.

Our approach

We understand your reporting challenge, work with approved data sources, build a fit-for-purpose solution and explain what the results mean for day-to-day management.

Who we support

Schools

Student strength, attendance, fee tracking and academic results.

Colleges & universities

Department-level reporting, enrolment, results and placement analysis.

Coaching centres

Enquiries, admissions, course performance and fee collection.

Tuition & training institutes

Learner records, attendance, payments and progress reports.

What you can expect from us

- **Clarity:** easy-to-read reports designed around management questions.
- **Consistency:** repeatable reporting formats and agreed KPI definitions.
- **Efficiency:** less repetitive manual work where reporting can be streamlined.
- **Practicality:** recommendations tied to your actual data and goals.

Our positioning

Affordable, approachable analytics support for institutions that want to make better use of the data they already collect.

02 | MEET THE TEAM

Three founders, one clear focus.

Delivery, client relationships and day-to-day operations, covered by the people you speak to.

KS

Kumar Aditya Singh

Founder

Head of Development and Services

- Solution design and dashboard development
- Service delivery and output quality

MJ

Manav Kumar Jha

Founder

Head of Finance and Client Management

- Client communication and engagement
- Quotations, fees and commercial terms

ST

Sanvi Thakur

Founder

Head of HR, Operations and Admin

- Team coordination and HR
- Operations, documentation and administration

Who to talk to

If you need...	Your point of contact
Scope, dashboards, reports	Kumar Aditya Singh, Head of Development and Services
Quotes, fees, client support	Manav Kumar Jha, Head of Finance and Client Management
Scheduling and admin	Sanvi Thakur, Head of HR, Operations and Admin

Why work with MAS EduData

Founder-led

You deal directly with the people responsible for your project.

Clear roles

Development, client management and operations each have a named owner.

Scoped in writing

Deliverables, timelines and fees are agreed before work begins.

03 | OUR SERVICES

Reporting that answers management questions.

Six focused service areas covering the data institutions rely on every day.

Student data analytics

Enrolment summaries, class-wise student counts, active/inactive records and retention trends.

Attendance analytics

Daily and monthly attendance, class comparisons, absenteeism patterns and follow-up lists.

Fee & collection analytics

Expected versus collected fees, outstanding balances, monthly collections and collection trends.

Admission analytics

Enquiry tracking, admission conversion, course demand, lead sources and counsellor-level summaries.

Academic performance analytics

Subject-wise results, class comparisons, exam trends and identification of students who may need support.

MIS & reporting automation

Excel reporting, Power BI dashboards, SQL-based data extraction, data cleaning and recurring management reports.

Technology toolkit

Excel
Cleaning, analysis and MIS

Power BI
Interactive dashboards

SQL / MySQL
Querying and extraction

Python
Analysis and automation

The tools used for each engagement depend on your current systems, data format, access requirements and reporting needs.

04 | SAMPLE SOLUTIONS

What we can build for you.

Proposed demonstration projects using fictional/sample data. They illustrate the type of reporting MAS EduData can develop and are not claims of completed client engagements.

School management overview

A consolidated view of student enrolment, attendance, class strength and academic results.

- Total enrolled students
- Attendance rate
- Class-wise strength
- Average exam score

Management question: Which classes need attendance or academic follow-up?

Coaching centre performance

A management view of enquiries, admissions, course demand and fee collection.

- New enquiries
- Admission conversion
- Monthly collections
- Pending fees

Management question: Which enquiry sources and courses are contributing to admissions?

How a project is delivered

1. Discover
Discuss goals, current reports and the decisions you need to make.

2. Prepare
Review approved data, check quality and agree definitions and KPIs.

3. Build
Develop the agreed analysis, dashboard or recurring report.

4. Validate
Reconcile key figures with source records and review with you.

5. Handover
Agreed files, usage guidance and optional ongoing support.

Data handling & confidentiality

We work only with data you are authorised to share. Confidential information is handled with agreed access, storage and deletion controls, and key figures are reconciled with your source records before handover.

05 | ENGAGEMENT OPTIONS

Clear, scoped introductory pricing.

Indicative introductory pricing for small, clearly scoped projects. A final quote is provided after reviewing your requirements, data sources, record volume, complexity and delivery expectations.

STARTER DASHBOARD

₹2,999

One-time indicative price

- One dashboard
- Basic data cleaning
- Up to 5 agreed KPIs
- PDF report and handover

PROFESSIONAL ANALYTICS

₹5,999

One-time indicative price

- Up to 3 dashboard pages
- Multiple agreed KPIs
- Data transformation
- Management summary

COMPLETE ANALYTICS

From **₹9,999**

One-time indicative price

- Multiple dashboards
- Admission, fee or attendance analysis
- Advanced reporting
- Automation where scoped

MONTHLY MIS SUPPORT

From **₹1,499** / month

Recurring support

- Agreed report updates
- Data cleaning
- Monthly performance summary
- Defined support scope

Terms we agree before starting

- Scope, deliverables, timelines, revision limits and fees are confirmed in writing.
- You provide authorised data and confirm it may be used for the agreed work.
- Online dashboard sharing may require separate software licences or client subscriptions.
- Confidential information is handled with agreed access, storage and deletion controls.

06 | NEXT STEPS

Let’s make your data work for you.

Discuss your reporting challenge or request a sample dashboard demonstration. Getting started takes three simple steps.

1. **Share your reporting challenge**
   Tell us what you report on today, which decisions you need to support and what is difficult or time-consuming.

2. **See a sample demonstration**
   Review a sample dashboard built on fictional data so you can see the style and depth of reporting before committing.

3. **Receive a written scope and quote**
   We confirm deliverables, KPIs, timelines, revision limits and fees in writing so there are no surprises.
